

December 29, 2021

Dear President KY Leung,

Warmest greetings from the Organizing Committee of the 53rd Annual Congress of Korean Society of Ultrasound in Medicine (KSUM 2022)!

On behalf of the Organizing Committee, it is our great pleasure to inform you that KSUM 2022 will be held on May 12-13, 2022 at COEX, Seoul, Korea.

Under the current COVID-19 situation, we anticipate that foreign participants will experience difficulty in freely entering Korea. As such, the Organizing Committee is preparing a hybrid format that will propose sessions both online and onsite, which participants may attend safely the conference.

The KSUM 2022 Hybrid Congress will cover the latest findings in the field of ultrasound in medicine and biology, and provide you with the chance to share your thoughts and ideas and hear renowned speakers and delegates.

In this regard, we would like to cordially ask for your support in sharing the below important information on KSUM 2022 with the members of your society and encouraging them to take interest in the meeting:
