Invitation

Dear Friends

IFUMB is inviting you to the 15th congress of the Asian Federation of Societies for Ultrasound in Medicine & Biology (AFSUMB). It is after a gap of 12 years that we are hosting this congress again, at Hyderabad, India from 11th to 13th of November. The venue is the famous Hyderabad International Convention Centre and Novotel Hotel.

We are expecting 40 National speakers who have done great research in their speciality.

We are expecting 10 international speakers of great repute to share their knowledge. The theme of this conference is "Clinical Dilemmas and Ultrasound solutions"; Going with the theme, the focus of all the experts will be on giving practical ultrasound solutions.

The highlights of the conference will be "How I handle a clinical problem", "Ask the professor sessions", "case based discussions" and practical workshops.

It is planned to have a structured approach in all the specialities every day of the conference, few examples:

- Fetal medicine how I do sessions, Hand held training in interventions and simulator based training.
- Musculoskeletal –demonstration of imaging techniques, MSK interventions and case based discussions.
- Gynaecology – Protocols and guidelines, Flow charts formulated
- Breast imaging and interventions – Imaging and intervention tricks and tips.
- Elastography- intricacies and its clinical applications from the best in the world
- Applications of Ultrasound contrast.
- Regular abdominal ultrasound workup
- Vascular Ultrasound – workshop on technique, knobology

Hyderabad is the capital of Telangana state, and is also the capital of Technology industry in India. The city has a history of more than 400 years. Relics of the Qutub Shahi and Nizam Shahi rules remain visible today. Charminar has come to symbolise the city. The world's tallest monolith of Gautama Buddha, erected on Gibraltar Rock in the middle of Hussain Sagar is 58 feet tall. Hyderabad has a distinctive culture with its unique style of paintings, handicraft, jewellery, language, and literature. For its distinct cuisine, the city is listed as UNESCO creative city of gastronomy.

After a stressful, challenging two years of pandemic, it's time to meet and greet friends, enjoy the hospitality of Hyderabad and at the same time exchange ideas, share scientific knowledge and present your research. The emphasis of this congress (AFSUMB 2022) is on the practical, and therefore we are planning a plethora of workshops, case discussions and meet the professor sessions.

Looking forward to your participation

Sightseeing In Hyderabad

Charminar

The very well known Charminar of Hyderabad is located at the Old City. This square shaped structure with a height of 56 m and breadth of 30 m was constructed in 1591. It was built by Sultan Mohammed Quli Qutb Shah in the honor of his wife Bhagmati.

Also referred as the 'Arc de Triomphe of the East', Charminar is adorned with four towers in each corner. The minarets on each side, is of 48.7 m height, each with four storeys. Charminar has a small mosque as well on the top floor. There are 45 prayer spaces which are still visited by people, particularly on Fridays. Lighting in the evening is quite glamorous and makes for a worth watching site.

Golconda Fort

Just 11 km away from the city, the architectural marvel Golconda Fort is well connected to the rest of the city. Built by Qutub Shahi Kings, this fort presents an impressive structure, with eight gates and 87 bastions.

Its impressive structure has majestic walls which are as high as 15 to 18 foot and a parameter of close to 11 km. Along with brilliant architecture, this fort also captivates its visitors with its system of acoustics, its water supply system, 'Rahban' cannon and Ramdas' prison which has carved Hindu deity in it.

Ramoji Film City

Since 1991, Ramoji Film City has been alluring tourists from every corner of the country. One of the largest film studios in the world it has the capacity to house almost 50 film units within a given point of time.

It is also listed in Guinness Book of World Records as well. Spread over 2500 acres, it is situated about 30 km away from Hyderabad. Its brilliant architecture and sound technical facilities make it suitable for all the pre and post production of a film.

Hussain Sagar Lake

Connecting the twin cities, Hussain Sagar Lake boasts of being the largest artificial lake in Asia. On the tributary of Musi River, it was excavated during Ibrahim Quli Qutub 1562 AD. It has got its name after Shah's reign, in Hussain Shah Wali.

The main attraction is 16 m high white granite statue of Lord Buddha with a weight of 350 tonnes, situated at the middle of the lake. The lighting show here is worth watching.

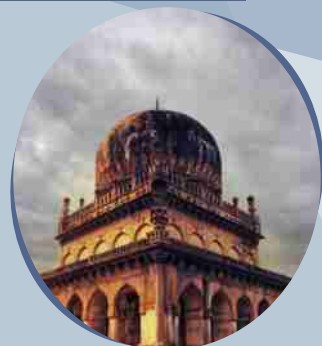

Chowmahalla Palace

Chowmahalla Palace, with literal meaning of 'four palaces' in Urdu language was built in the 18th century. It was during the reign of fifth Nizam, Afzar-ud-Daulah, Asaf Jav V, from 1857 to 1869, that the palace was completed.

Initially spread across an area of 45 acres, the palace now covers 12 acres of land. The palace has two courtyards – the northern courtyard and the southern courtyard.

Qutub Shahi Tombs

Consisted of the tombs of 7 Qutub Shahi rulers, these are known to be one of the oldest heritage sites of Hyderabad. Qutub Shahi Tombs are located only at a distance of 850 m from the Banjara Darwaza of Golconda Fort.

Presenting a combination of Persian and Indian architecture, these tombs were built by the Qutub Shahis.

Later in 19th century, these were renovated by Salar Jung III, Mir Yousuf Ali Khan. Constructed with grey granite, these quadrangular structure with dome shape roofs are ornamented with beautiful designs.
